BeomJun Kim
Graduate Student

Education

Mar 2017 - Present, Yonsei University
MEng in Electronical Electric Engineering

Mar 2014 - Aug 2016, Yonsei University
BS in Computer Science

Mar 2011 - Dec 2013, Konkuk University
Majoring in Computer Science & Engineering

Work Experience

Aug 2016 - Dec 2016, *Software Engineer,* Momsitter
- Developed admin web pages for managing users

Jul 2015 - Aug 2015, *Summer Intern,* Computational Intelligence & Photography Lab, Yonsei Univ
- Researched papers about Satellite Image Super Resolution and presented in lab seminar
- Developed Image simulation web app using Daum Map API for simulating satellite's camera

Jul 2015 - Aug 2015, *Software Developing Intern,* Kulcloud
- R&D company about Software Defined Network
- Developed SFA Openstack Wrapper API using Python

Sep 2014 - Feb 2015, *Software Developing Intern,* Korbit
- Maintained Front-End web in maintenance team
- Developed prototyping app based on web before launching native iOS app

Jan 2014 - Feb 2014, *Winter Intern,* Scalable Computer Architecture Lab, SNU
- Analyzed Qemu's ISA translating code for synchronizing with Mc-Sim which is memory instruction analyzing tool using Full-System Emulator
- Attended lab seminars every week

Extra-Curricular Activities

Mar 2016 - Dec 2016, YMCG
- Learned how to think logically

Mar 2015 - Aug 2016, Yonsei Fitness Club
- Gym club; workout every Friday in 2015
- Participated in 34th Mr.Yonsei Contest

Aug 2014 - Aug 2014, World Friends IT Volunteer 2014, IT Teacher, Surabaya Indonesia
- Took leading role of teaching high school students HTML during IT class and Taekwondo, Korean cultures
